MATERNAL LINEAGE

PATERNAL LINEAGE

NEANDERTHAL

Your maternal haplogroup is

**H5a4a**

which is derived from

**H**

Migration of your maternal lineage

- more than 150.000 years ago **L**
- between 70.000 and 80.000 years ago **L3**
- about 65.000 years ago **N**
- about 60.000 years ago **R**
- about 40.000 years ago **R0**
- about 30.000 years ago **HV**
- about 20.000 years ago **H**

Your paternal haplogroup is

**R1b1a1b1a1a1b1a1a**

which is derived from

**R1b**

- 300,000 years ago **Y-Adam**
- about 160,000 years ago **A0T**
- 160,000 years ago **A1**
- 130,000 years ago **A1b**
- between 88,000 and 130,000 years ago **BT**
- 70,000 to 100,000 years ago **CT**
- about 68,000 years ago **CF**
- between 49,000 and 66,000 years ago **F**
- between 49,000 and 59,000 years ago **GHIJK**

Ancestry Sample Report

You have

**1.5%**

of Neanderthal DNA

We have analyzed about 6000 genetic variants from the Neanderthal, of which **333** are present in your DNA. These results mean that you have a **16.12%** less Neanderthal genetic material than the average of our clients.
